## INTRODUCTION

Let me make one point clear - This is issued in public interest and costs time and money to create and advertise to reach the maximum number of beneficiaries. Please feel free to help others not fortunate enough as you are....So they can stop wasting their time and money and start building true wealth .

I lost \$48,678 in these scams and that's not the kind of money anyone should waste on these program.

You can learn from my mistakes and finally...." How I found a safer , better, proven way to wealth creation with one time 15 – 20 minutes of simple Work !" – A 12 year could do it.

### 1 ) **Why People Fall for HYIP's and Surf for Cash Programs**

I've Invested in and tested out over 124 different HYIP's and Surf for Cash programs over 24 months and watched them GO BUST taking all the hard earned money of every one of the investors.

(I'd call them ignorant fools like me and you) who thought there was some way this one ...or the next one would work.....until I finally realised the truth.....and stumbled on a better way to wealth

creation .

More on that later...

Now HYIP's and surf for cash programs offer you cash returns on a daily basis ( credited to your account) and that attracts droves of ignorant and gullible folks ...who are looking for a simple way to make money the easy way.

### 3 Types of HYIP's and Surf for Cash Programs

- 1) Typical HYIP's or Surf for Cash programs offer 30% - 40% return every month.
- 2) Then there are the desparadoes that offer 100% or more each month.
- 3) Then there are the outright scammers - these offer 100% - 150% every day !

Aren't these tempting offers ?

Of course they are, So people fall for these for different reasons....the more greed.... the higher return is chased with gusto !

-----

### 2) Why They are a Great Way to Lose Money ?

Let's get real ....

How much does your bank pay ?

Ans - 3% - 4% not a day..not a month ...but in a year.

How much does a typical Mutual fund pay ?

Ans - In a Good year 12% - 24%....in a bad year you could get 1% - 4% or worse lose money.

**So How can HYIP's and Surf for cash offer such fantastic returns ?**

They do it initially, by using the money the investors who join later bring in, to pay the earlier investors. A typical Ponzi scheme.

They are selling a "get rich quick" dream so people fall for it every time...and move from one to the next even after getting scammed again and again. It soon becomes an addiction.

**Make a little now, lose a lot later, kind of game continues...till they lose all their money !**

some HYIP'S claim they do Forex trading ?!

That's just B.S.

I found most real forex traders make and also can lose money just as easily ...the best ones make 120% - 300% a year.

That's less than 30% a month. And these are only if they have best traders !

Most HYIP's just make **empty claim to be making money from Forex trading or other investments to gain the trust of innocent investors..** ...but in reality they don't do any trading or real investments at all.

And they don't give their contact address or Phone numbers and claim it is given to VIP investors !

You'll never hear from any genuine VIP members as they don't exist.

Even when a Phone number is given, the Address given in a foreign country is fake.

Besides all transactions are made by e-gold or e-bullion – These are Non reversible transaction.

This makes it very convenient to rip people off.

And once they have swindled 1 - 100 Millions like Solidinvestment.com and other programs they just disappear with the loot....to hell with the address and phone number !

They can live anywhere in the world with that kind of money.

-----

### 3) How HYIP's and Surf for Cash scam work ?

First they promote in HYIP forums and so-called HYIP Monitoring websites ...and offer investors Commissions to bring in more such gullible investors.....and .....the cycle goes on ...and on ....till the new investors don't grow fast enough to pay the earlier investors who's payments become due. Then one fine day the website disappears !

The website disappears for few hours...or a day ...then it comes back !

Then they say ....they were subject to massive attack from hackers or Denial of service (DOS) attacks.

A believable story....its just that ...not a story but a "cock and bull story"

Then there are complaints in the forums(if they have one) from a few members saying they are not getting paid !

Then the admin comes in ...or a moderator says "due to DOS attack some of the data got corrupted" Or "hackers changed some information and the programmers are working furiously to bring everything in order."

And of course, they assure " All will be paid"

The Reality is really shocking....they are now just playing for time and hope people continue to believe their scam and pour more money....while they make excuses to deny payment !

Are you getting it ?! Most don't !

So investors continue to pour more money in.....and the admin does not pay anyone.....or pays about 1% of the pending payments.

Now these Heroes post "I got paid, Great admin, I reinvested again !!"

So what happens next...more people pour more money in....few try to write " admin not paid" ....these posts get deleted....

Or Worse ...the moderators just ban that negative poster !

Did you get that ? Read it again. Its happened to me and other investors and if you are a newbie....you'll experience it soon.

So only the few who get paid are posting like crazy....driving others to pour more money in !

Now the admin merely runs it as long as the money slows down as more and more investors realize they are not getting paid but cannot post anymore about it 'cause the moderators just ban them or delete all negative post.

Then when the admin realize the new funds are not pouring in but have become a trickle...and one fine day( it has to be a fine day at least to the admin)....they finally close down the website !

All investors desperately look for the website but it never returns... ..and they go home cursing the admin....and look for the next El-dorado that can give them the absurd High return.

So wasting time and losing money goes on ...and on....and on...

-----

#### 4 ) Even Honest Ones Close Down ?!

Yes, we found 3 companies with honest admins but they too closed down due to reasons that are inherently linked to these operations being illegal. And also due to charge backs and complaints from investors who don't get paid, to SEC and other GOVT authorities.

For instance 4dailypro.com closed down due to stormpay freezing their and all other Surf for Cash programs money. ...and here's the kicker.

When the case was taken to the court....guess what happened ?

The judge decided to close down operation of 4dailypro claiming It was a ponzi scheme !

And stormpay, the crooked payment processor, merely continues to carry on its nefarious activities keeping all the loot !

Some justice !

Others Hyip's close down as a result of the high cost of running the operation.

Here why....

To deliver high returns the company ( at least the honest ones) have to earn even more....so they take high risk...often investing in HYIP's or Surf for cash program that give higher return.

So what happens when those programs close ?

Our Honest joe loses all his money and cannot pay his investors !

Now Honest joe loses all his money and gets all the sympathy from the members !

And what happens to the investors ?

He/she is left holding the poo cloth ....ends up in a bigger financial mess then when they started out.

I've found people losing their car payments/rent and begging admins to at least return their principal...but these scums don't reply...they just steal and run.

The honest ones give some vague assurances that they cannot deliver on.....the poor investors.....well he lost it for good and is left dreaming and hoping to get back his principal ! It never happens.

-----

## 5) The Harsh Truth

DO you still need convincing that HYIP's and surf for cash scam don't work ?

### How do I know so much about it ?

As I mentioned before, first by investing, analysing and making small amounts, losing even bigger amounts with over 124 HYIP's and surf for cash programs and....as an additional proof I heard from one of the admin of invex.org in one of the forums after they ripped off over \$50 Million from the investors .

Here's what he said." .....we ripped of over \$50 million on this job and have done this before and continue to do it as long as we have millions of foolish people who believe these things work..."

" So why am I revealing this to you ? Because even if a few hundreds know about how we do it .... there are millions coming online ...and we are ready to rip them again ...and again !"

## Shocked ?

I was, when I first heard it....and I felt like a stupid ass like every one else. I lost \$24560 on this one alone.

And I was in tears for days. And to think I'd lost more in other programs earlier and was desperately hoping this would work....only to be financially raped again.

For days I was too embarrassed to even accept it had happened and I haven't had the nerve to tell my family about this even to this day .

Do you Still want to invest in HYIP's or Surf for cash schemes ?

The Plain and simple truth

HYIP's and Surf for Cash never worked and never will.  
The sooner you accept it the more money and time you can save !

So is there a better, safer, proven way to invest to get a higher return than typical banks and mutual funds ?

I'll reveal in the next chapter
